

I am so anxious
for you to get it
all straight. A
number of large
beautiful, 400-ton
Shires have been
built in that
of I would think you
would prefer a good
price for it now.
A large can see
at all right for
Country the one
I mentioned.

You will see from

this that my arm should be
getting so much better, and at
times I can write almost the
same as ever but my hand soon
gets cramped and tired

I rec'd your nice letter yesterday.
Wrote to your son sometime ago -
did not mail it right away, kept
waiting and waiting every day, every
hour, to hear something particular
to write concerning the lot - but so
far have been able to gain no

for on such loss & see if
definite information at all. They do
nothing for you here without money -
Papers & titles, etc will have to be
searched & examined to find out who
is the owner of # 58 now. The
numbers have all been changed - &
also the name of the Street - It is
now called Barringer St instead
of Gamble Avenue as formerly.
My lawyer has told me that your
son can get it, that he certainly can,
but it will take some looking up. They
tell me that a copy of the title will
cost \$5.00 I would not advise you
to go to that expense. Get C. J. Gasque
to attend to it for you. He has promised
me that he will make his charge very
little. He is a rising young man
& I feel sure will do his best for
Pete. Suppose you write him a

to bring in - I will give it
to you, but you must get it out
for her as - It might have a
good effect - He is so devoted to
his own Mother - a fine family.

C. Jackson Gasque, (Attorney at Law)
N. Evans St. Florence S. C.

I have talked to him about
the matter at different times - He
seems particularly interested, but
as I told you they all want
money - The old Probate is dead -
his son acts in his stead now - I
will write you soon at length - Let me
hear from you soon. I am not
at all well. Hope you all
are keeping well. Mr. Gasque is
anxious to hear from P. G. Give
him power of Attorney - I am sure
he will do right by you - I don't
know if the lot is improved or
