

My father was never told the Roosevelts were his cousins and I didn't know it until I was informed after my father's death by my grandfather's brother's family.

I will ask Paschall if he wishes to become a member of the First Families and so forth.

Enclosed are some pictures of Paschall McNeill taken from a magazine where he used to work during college summer vacations. He never did explain that bow tie. I think it was part of the badge to identify one as an employee or perhaps one of the wolves.

Happy New Year.*
