The Secretary inadvertently omitted the Smith data I failed to check it (atkins will). Proves the Smiths are jinxed - jinxed - I follow your notes but wish I had some proof over seas. Bill says I should go ahead and hire a Genealogist I'm waiting to hear from one now. It seems we should easily prove or disprove ^{by} sending the Genealogist our supposition.

Mr Salley - Narratives of Early Carolina p. 169 n. says. Paul Smith died 1672 age 77.
The grand children of Sir Nicholas Smith ob. 1622 should be KNOWN in England. Sorry I missed the meeting - we were working of Plantation Sale. agns
