Dear Charles:

On publication of the story about the Landgrave Smith marker, I received a call from my friend Mrs. L. Buist Davidson of 102 South Battery, Charleston, S. C., with additional information she has about Thomas Smith's origin in England.

I believe this data should be included in what you have at Columbia. Mrs. Davidson has agreed to let someone from your office inspect her records and perhaps this might be undertaken by whoever may be coming to the unveiling.

Mrs. Davidson tells me that her two nephews are the only lineal descendants bearing the name of Smith now extant in South Carolina. I felt sure you would want this information.

With thanks again for your help,
I am,

Sincerely,

T. R. Waring
