Dear Robert,

Thank you for your most informative letter. How interesting it would be to visit you. Margaret Ann Seay or Sealy - I'm really not sure which - was the granddaughter of a Stony from Ireland. The two families lived at Hilton Head, S. C. around 1770. Margaret Ann married James Monroe White who was land commissioner of the Republic of Texas. He was a descendant of Geo Monroe who settled in James City Va during the 1620s. They were my gg grandparent. Although my grand-parents were David Medlock and Rachael Adams born about 1800, I believe in Abbeville, S. C. His father was Nathaniel Medlock and I know how interesting tracing one ancestor is, I would have started long before you! Thanks again for being so helpful.

Sincerely,
Mark
