Dear Dr. Peeples:

It was good to talk with you this morning. We are so glad that this book is available.

The Willinghams are not only important to me on my maternal side; they were also most important to the Vaughans as they helped my grandfather Vaughan get thru Mercer and then they hired my own father to work for the Mills as a bookkeeper. Finally they sent my father out on the road to represent the mill with some of their customers. And that is how my father met my mother Caroline Lawton.

If possible we will certainly try to meet you at Savannah.

BEST,

Albert
