

I am very interested in your statement in the article about H.H. that my Popes came over to H.H. from St. Helena. I know this is true - Elizabeth Catherine Pope was born on St. Helena - but I would like so much to know just where their land was on St. Helena and the name of their plantation there. I would appreciate it if you could fill me in on this so that I can add it to my records. I know the Joseph Popes lived at Feliciana - or at least I think so.

owned --
land

I do know where my ancestor Jonathan Norton ~~lived~~ on St. Helena - he and his wife Mary Ann Chaplin, gave two acres of land for the Chapel of East on St. Helena - the ruins of which remain. He was a vestryman of St. Helena's Church, Beaufort. He had inhsrited this land from his father John Norton. If you can add anything to this also I would appreciate it.

Milo joins me in love and greetings to Cora and you.

As ever,

Eleanor

As soon as the weather warms up wont you both come over to Tybee and spend the day with us? You should see how your oleander is growing - it is quite tall and lovely now.
