Dear Robert -

This is not the letter I intended to write but is a letter of transmittal for your Chaplin information which you so generously shared with me and requested be returned.

I have never seen the will of George Norton so look forward to the time I can spend half a day talking with you - and see that will.

There is an excellent book, Sugar and Slaves about Barbados 1627-1714 and the other "Sugar Islands". I suggest it as a book you would enjoy. When I return from the business trip on which I leave today you will have a better letter.

Sincerely,

Bill Albergotti
