

INDIVIDUAL ANALYSIS CARD

- NOTE:—1. These Cards are intended to accompany the *Pedigree Chart*—one card for each member of the family tree.
2. If the study is to be of value, all statements—concerning both “good” and “bad” traits—must be frank and fair.
3. In items numbers 19, 20, 21, 22, 32, 33, 39, 41, 43, 44, 46, 48, 51, 52, 56, 57, 58 and 59 grading by underscoring is called for. In these cases use the following system: *Underscore* with one, two or three lines according as the ability, the predilection, or the possession, as the case may be, is average, is somewhat above medium, or, is extremely high (such as is possessed by one person in 1,000): *Strike out* with one or two lines according to whether the grade for the special ability, the aversion, or the lack, as the case may be, is somewhat below medium, or is strikingly low. Absence of underscoring or striking out implies no consideration of the trait in the person.

FAMILY

1. Principal surnames on *Pedigree Charts*:

INDIVIDUAL. A—HISTORY

2. Full name of individual (maiden name if a married woman) Duncan Gra Depler 3. Sex male
4. Date of birth Sept 25, 1890 5. Location on the *Pedigree Chart*: Generation No.; Individual No.
(if chart is not plotted, relation to some central figure of the family tree)
6. Birthplace: Town, County (or province), State (or country)
7. Principal residences:
8. If living, present address:

Habitual exercise: Kind _____ Amount (underscore): too much, optimum, too little. 34. Lesser diseases to which there has been liability: _____
35. Grave acute illness: _____
36. Chronic diseases: _____
37. Surgical operations (kind, age of patient, etc.) _____
38. Describe any natural defect, deformity, or birth-mark _____
39. Condition of speech: Enunciation (underscore)—clear, lisping, stammering, stuttering. 40. Natural voice:
In speaking:—Strength _____ Quality _____
In singing:—Strength _____ Quality _____ Register _____
41. Use of hands (underscore): right-handed, left-handed, ambidextrous. 42. Ability to do (not habit of doing) manual labor: Kind best adapted to _____ How able therein: _____
43. Grade (underscoring) in: physical strength, physical energy, muscular coordination, physical endurance.
44. Natural walking gait (underscore): very brisk, moderate, leisurely, shuffling. 45. Describe any marked physical prowess or athletic ability _____
46. Sense of equilibrium (underscore): subject to sea-sickness, nausea from swinging, dizzy at height. 47. Sense of direction: How easily lost: _____
48. Grade, by underscoring, natural acuteness or dullness of the special senses:—
(a) sight, (b) hearing, (c) taste, (d) smell, (e) touch. 49. Other physical traits _____

INDIVIDUAL ANALYSIS CARD

- NOTE:—1. These Cards are intended to accompany the *Pedigree Chart*—one card for each member of the family tree.
2. If the study is to be of value, all statements—concerning both “good” and “bad” traits—must be frank and fair.
3. In items numbers 19, 20, 21, 22, 32, 33, 39, 41, 43, 44, 46, 48, 51, 52, 56, 57, 58 and 59 grading by underscoring is called for. In these cases use the following system: *Underscore* with one, two or three lines according as the ability, the predilection, or the possession, as the case may be, is average, is somewhat above medium, or, is extremely high (such as is possessed by one person in 1,000): *Strike out* with one or two lines according to whether the grade for the special ability, the aversion, or the lack, as the case may be, is somewhat below medium, or is strikingly low. Absence of underscoring or striking out implies no consideration of the trait in the person.

Weight at birth: pounds; weight pounds at years (adult or present) of age. 25. History of change of weight during adult life:
26. History (date or age) of falling hair (baldness) 27. Of turning grey
28. Of failing or defective hearing 29. Of failing or defective vision 30. Of tooth decay 31. Of failing strength
32. Eating: Amount (underscore)—too much, optimum, too little. Balance of rations (underscore): proper, poor. Mastication (underscore): thorough, medium, little, “bolts food.” 33. Habitual exercise: Kind Amount (underscore): too much, optimum, too little. 34. Lesser diseases to which there has been liability:
35. Grave acute illness:
36. Chronic diseases:
37. Surgical operations (kind, age of patient, etc.)
38. Describe any natural defect, deformity, or birth-mark
39. Condition of speech: Enunciation (underscore)—clear, lisping, stammering, stuttering. 40. Natural voice:
In speaking:—Strength Quality
- In singing:—Strength Quality Register
41. Use of hands (underscore): right-handed, left-handed, ambidextrous. 42. Ability to do (*not* habit of doing) manual labor: Kind best adapted to How able therein:
43. Grade (underscoring) in: physical strength, physical energy, muscular coördination, physical endurance.
44. Natural walking gait (underscore): very brisk, moderate, leisurely, shuffling. 45. Describe any marked physical prowess or athletic ability 46. Sense of equilibrium (underscore): subject to sea-sickness, nausea from swinging, dizzy at height. 47. Sense of direction: How easily lost:
48. Grade, by underscoring, natural acuteness or dullness of the special senses:—
(a) sight, (b) hearing, (c) taste, (d) smell, (e) touch. 49. Other physical traits

INDIVIDUAL ANALYSIS CARD

- NOTE:—1. These Cards are intended to accompany the *Pedigree Chart*—one card for each member of the family tree.
2. If the study is to be of value, all statements—concerning both “good” and “bad” traits—must be frank and fair.
3. In items numbers 19, 20, 21, 22, 32, 33, 39, 41, 43, 44, 46, 48, 51, 52, 56, 57, 58 and 59 grading by underscoring is called for. In these cases use the following system: *Underscore* with one, two or three lines according as the ability, the predilection, or the possession, as the case may be, is average, is somewhat above medium, or, is extremely high (such as is possessed by one person in 1,000): *Strike out* with one or two lines according to whether the grade for the special ability, the aversion, or the lack, as the case may be, is somewhat below medium, or is strikingly low. Absence of underscoring or striking out implies no consideration of the trait in the person.
