

Sunday pm -

Dear Bob.

Sorry I haven't answered your prompt reply - No time at office or at home for some time, and too. Since you said you'd need your chairs over Thanksgiving to rush - Randy's chair is being covered now and am anxious to see the work - Since I have a nice deal on this work if it's satisfactory (and Randy is the guinea-pig) I cannot rush it and I have to deliver to the deer - If his chair is OK will bring some colors that you suggested than the giving and bring your stuff back on trailer that I can borrow here - unless you want to wait until after the holidays and I don't imagine you will need to -

Was home Sat. noon until today and all OK except Miss Margaret was tired and her stomach still sore - She keeps saying she is fine but I don't like this nervous to eat & last as it has for a good while now - It's true she does too much hard work (Sat. am. planted 24 dogwoods at cemetery - had a man to do the work but was on her feet and I'm sure not idle) but still this thing has been persistent lately -

As for congratulations for me - I am in line for a raise in two or three years but nothing yet since I haven't had time to write up a "job description" for the first yet -

The bad thing is that I see no litany for the immediate future -
You can bet that I'll put in overtime before too long for my
purposes and let the office ride because am losing money
all the time it waits - Took the Federal Service Entrance Exam
some time ago & rec'd an "eligible" rating and many papers to
fill out there too - much to my surprise - want to send them
in to see what it'll bring but that will take some too -
Have had them over a week now and have had to put them
aside - would not be so bad if I had anyone in the office who
knew the work but Morrison (had been there 5 yrs) left to be
married the 3rd. & I have two brand new girls to train
with no help - I'll get another girl as soon as we are
able to break one - and maybe a fourth later but it all
takes time - with this and a new house and setting up a
5 state-wide office and other obligations it's hectic - There'll
be better days and I'm looking forward to them -

Good all is going well with you - Hope I can leave Fri.
after 2 months going off - Expenses will all you then and will
bring trailer & material unless you want to put off until
after the holidays -

Love,
Rex
