Dear Dr. Peeples:

Please don't consider me ungrateful because I have not I have not written and thanked you for "Our Family Circle." We are real proud to have this book and love the way you have up-dated it. This must have been quite a chore, but you have done an excellent job.

I also appreciated your letter of Sept. 5th. It was so full of valuable info. If there are other things that you think I need to know, I would like very much to have them.

Your information about the chalk on the tombstones has helped lots, too. Deborah, Robert and I went to Mt Carmel and Lawtonville Cemeterys and she got some great photos with the help of white chalk. Yesterday, Pattie Youmans Howard, my two sisters and I went to the two cemeteries (also Black Creek) because my sisters had never seen them. We are planning on going back when the weather cools and clean some of the stones.

I know so little about genealogies, but have been gathering info for 25 to 30 years. If we can gather enough info, Lindsey Henderson and I are hoping to have it printed on the Garvin & Ihly side. My mother was an Ihly and my father a Garvin. Lindsey's grandmother was a Garvin and his grandfather an Ihly. Lindsey's mother, Stella I, Henderson, is my double first cousin. I think reading names and dates is so dry that I am trying to get a little data about each person.

Thank you so much for your help. When you are in Savannah, we would love for you to visit with us. We live on Wilmington Island.

Thanks again,

Sincerely

Mrs. Robert M. Sieg

My telephone number is 897-4142
