Dear Cousin Robert,

I'm delighted with the Peblee family history. Will you please send a copy to my sister Mrs. Raymond Antney, 250 Fair Place, Boulder, Colorado 80302.

She corresponded with Dr. Clarence Peblee of Carlinville Ill. who was very helpful. He retired from the U. of Chicago Dental School.

I'll tell you a little about my family & I'd like to know about yours. I was born April 7, 1909 in Dallas where I've lived all my

life. In 1931 I married Dr. John
Edmund Ashby. We had four
children; Nancy Jane Clark (a
widow) who has one son Ashby
Clark. They live in Palm
Springs, Calif. She & her husband
were graduates of Stanford U.

John Edmund Jr. (Jock)
vice president of Tektron
Financial Systems lives in
my old home. He has three
daughters - Suzanne Ashby
Robertson who has one son,
John Malcolm Robertson III,
Shelley Ashby and Elizabeth
Ashby.

Lynn Co. Ashby of Hunter
has three children - Christopher
Lynn; a soph at Vanderbilt U.,
Laura Candace and Tristan
Francis. Lynn is editor of

The Houston Post. He and Jack
both graduated from Texas U.

Christopher C. (Jr.) Sekby, is
a graduate of the School of
Foreign Service of Georgetown
U. in Washington, D.C. He is now
Vice-pres. of Chemical Bank
of New York & in charge of
their Spanish branches.
He and his family live in
Madrid and have four children,
Christopher C. (Jr.), Anson
Edmund, Patrick Lynn and
Kathleen Victoria.

My husband died of cancer
in 1966 and in 1975 I married
Howard who is well known
for over fifty years. He's a re-
tired lawyer.

I have two degrees from U. M. U.
I obtained my masters 25 years
after graduating from U. M. U. &
then taught first grade for twenty
years in the school one block
from home. I didn't retire
until I remarried.

My parents, aunts, uncles
& I are charter members of the
Highland Park Presbyterian
Church.

Now tell me all about yourself
and family, so I can add you
to my records.

Sincerely,
Lillian.

P.S. Do you by any chance know
the brother of my dear friend
Lucille Butt & Joseph E. Johnson,
1 Saltwind Way, Hilton Head?
