Dear cozs Robert & Cora,

Just a hurried note to send this extra money for our "Stones" & will let you forward on to Russell, since you have been so kind to do the other & I wanted you to know what I've done. My income tax this year is so much greater than usual, cashed in some IRA's & uncle Sam will get most of my interest owned as you know. So have sent extra to my church and to our Ass'n. Perhaps we will have enough to get a stone for Sarah Jaudon Robert in the Robert cemetery & one for Jacques de Bourdeaux Robert at Stony Creek. (\$1,150.00) I want you to get them and prepare the epitahs if you will. I trust your judgment!!! whole heartily.

The Lord has been so great to us this past year, my health, His goodness & Mercy & my trip to Switzerland, how I want to go back and do some research. What fun that would be. Blessings to you both and a beautiful New Year.

With family love,

PS, I've heard rumors that our Lawton meeting will be at Edisto Island? if that be true do you think we can see Paul Grimball's Plantation, who should I contact about this?
